DETAILED ACTION

Allowable Subject Matter

1. The Examiner acknowledges Applicant's submission of the amendment filed on 10/04/04.

2. The allowed claims are 1-32.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the recitations of the specific features of the apparatus and method, of claims 1, 12, 17 and 28, including especially the following:

The primary reason for the allowance of independent claim 1, is the inclusion of forming a fluorescence representation and a scattered light representation as a function of wavelength from the detected fluorescent and reflected light from the tissue.

The primary reason for the allowance of independent claim 12, is the inclusion of the broadband light source generating light in the range of 330-700nm, claimed in combination with collecting scattered and fluorescent light, and providing fluorescence data and scattered light data as a function of wavelength.

The primary reason for the allowance of independent claim 17, is the inclusion of processing the fluorescence spectra and reflectance spectra to provide an intrinsic fluorescence spectrum, a diffuse reflectance spectrum, and a light scattering spectrum.

The primary reason for the allowance of independent claim 28, is the inclusion of collecting scattered, fluorescent and reflected light from the tissue, and providing a fluorescence spectrum, a reflectance spectrum, and a scattered spectrum as a function of wavelength.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
